

LAMBERTS
EcoGlass
since 1996

LAMBERTS
est. 1887

Certificate of origin

Herewith we gladly confirm, that all our Lamberts glasses are solely produced in our only production plant in Egerstr. 197, 95632 Wunsiedel, Germany, where they are manufactured according to the world-wide leading Lamberts Ecoglass-Concept since 1996 (!).

Hereby it is secured that when you buy Lamberts products, firstly you get glass 100% Made in Germany and secondly receive flatglass/U-glass/solarglass with the lowest CO2-emissions world wide (please see our enclosed EPD = Environmental Product Declaration).

The origin of glass can make a huge difference!
Depending on from which plant a glass product originates (e.g. furnace technology, age, production concept, usage of renewable energy, etc.) and how long transport is from the respective glass manufacturer to its final destination.

Please compare!

Wunsiedel, 02.05.2023
